

KEISER INFINITY

INFINITY SERIES

**THE SPACE-SAVING,
MULTI-USER TRAINING ZONE**

TRIPLE TRAINER

Model 3020 x 3 + Model 3030 or 3031

PUSHING THE LIMITS OF HUMAN PERFORMANCE

At Keiser, we're constantly innovating to reach the next level of human performance. We're never satisfied with the status quo. Even if it's our status quo. Because... Strong can be stronger. Fast can be faster. Power can be more powerful. Because science is on our side. **Because... 'Good Enough' Isn't.**

KEISER

KEISER INFINITY SERIES

Train real-world movement at real-world speed. From professional athletes to the frail elderly, Keiser's Infinity Series is the most efficient way to develop functional, real-world power — on any plane, at any speed. Whatever the motion you want to train — throwing a baseball, swinging a club, or just performing the activities of daily living — Keiser's Infinity Series lets you train the neuromuscular system at the speed of life.

INFINITY SERIES TRIPLE TRAINER

Model 3020 x 3 + Model 3030 or 3031

FREE-STANDING POWER

Since the arms of the Functional Trainer are angled at 120 degrees from each other, it made sense to connect three of them on one base for better utilization of space and to save the need for the big heavy Free-Standing Base [Model 3025] used on a single unit. Now, the three units have enough weight to hold themselves in place with a much simpler, lighter, and cost-effective Free-Standing Base [Model 3030]. You can also floor mount the three Functional Trainers with a Triple Trainer Floor Mount Base Plate [Model 3031]. [The Floor Mount Base Plate must be securely anchored to a concrete floor per instruction.]*

**Failure to follow the instructions could result in the Functional Trainer coming loose from the concrete, resulting in serious injury or death. The facility assumes all liability for the anchoring of this plate.*
