| Adjustable supports                | Yes         |
| Non-slippery profiles              | Yes         |

**SPECIFICATIONS - MOVEMIA TR800 TREADMILL**

- **Aluminum and high-strength ST52 steel structure**, with high-end finishings for all the internal components.
- **ABS plastic cover**, painted with the same technology used in the automotive industry for a greater durability and resistance.
- **Pro Tonic damping system with 10 shock absorption points. Technology for maximum back and joint protection.** Our technology absorbs the strongest impacts, offering a controlled tread. It adapts to the natural tread of the user, reducing fatigue and protecting the joints.
- **HST Phenolic Resin Deck.** MOVEMIA Treadmills include a revolutionary combination of belt and deck with HST Phenolic wax unique on the market that provides a maintenance free system, and eliminates the need of lubrication during 2 years.
- **Emergency Stop button linked to a cable.**
- **Heart rate sensors located on the handlebar**, very accurate and large for ease of use.
- Telemetric heartrate monitor by chest strap, compatible with the most common solutions sold in the market (chest strap not included).

**FULL CONNECTIVITY CONSOLE (SMARTFOCUS)**

- 4K/HD 16" display
- **Multi-language configuration: 23 languages available**
- Information on the screen: Speed, distance, time, burned calories, pulse, training program, level and inclination.
- **Internet Connection** via Ethernet or Wifi
- **TV Connection** (with coaxial cable)
- **Audio Input for earphones**
- **Training programs:** Manual, Hills, Weight Loss, Aerobic, Endurance, interval trainings, Distance Objective, Calories Objective, Time Objective, Heart Rate Control Objective, Gerkin Protocol, Cooper Test, Army Physical Test, Virtual Active.
- **Virtual Active** : 12 running videos, recorded on first person for a fully immersive sensation. Choose your track all around the world
- **Quick Start Mode**
- USB Port
- **Central Station - platform for an easy management of all the equipment:** This software offers a full vision of the equipment, giving live data of the performance in the club. The owner will have the possibility to analyze the data for each machine (hours of use, kilometers, alerts, warnings...). It offers, as well, some marketing tools in order to improve the communication with the customers, making it more efficient. Due to this Central Station, the machines will send automatic messages if the equipment is not connected to the internet or if the equipment requires some maintenance.
